To Mr. Lars

Sir Thanks for your email, from all the information i am having on my table, you were ask to pay that sum amount for delay because the money didn't get here on time and to inform you the slip of the unlock fee of 3,480GBP to British international Remittance got here on time, but there was some sort of delay of the cash which Mr. William J. Stockford explain and it was well understood, but the bank has it's own policy because of the amount involved, the transfer went into delay which lead to the demand of the sum amount fee of 3,930GBP and the fee most come from the beneficiary because the slip is needed for further proceedings and most be done within 48hrs which has passed but according to Mr. William J. Stockford in his last email he has to reach a deal for more days which he later got and i believe he most have related to Dr Rose.M.Peterson about the situation on ground.ReasonsAll this cost are being imposed because of security reasons and also for the safety of the funds, in the past this majors were not there and it lead to too many lost of funds that is why the British banking system has come up with all these majors for the safety of the funds, 'Remember what happen with this funds and Mr. Jonathan Arr how he almost diverted the funds to his wife'', in all words the banking system is doing all this for the safety of the funds not even Mr. William J. Stockford have access to the funds the only rightful person at this point is you whom Dr Rose.M.Peterson has presented as her beneficiary, the funds is in place and you still have the chance to get it through when all requirement are meant.Advice I will advice you to pay the fee of the sum amount 3,930GBP that has been incur by delay for the money to go through, the funds is still in place and has not been diverted to to the British Government from what i have here on my table as mentioned earlier, you still have chance to save your funds.

Thanks

Notification of funds
transfer

.....
..... Sir This is to inform you that the
3,930GBP that was transferred by you earlier 05/12/2013 for
the delay has been made available by Mr. William J Stockford
on this date of 11/12/2013 which has resumed the transfer
process to the finishing end for the money to go through to
your account in Swedbank. The funds has been entered for
transfer through the office of the British international
remittance for further accreditation to your account which has
overseen by me to make sure things work in your favor because
of the assurance i gave you in my last email but as the
transfer proceeds the funds was stopped because, the financial
year has ended and transfer charges has changed which requires
you to pay extra 1% of the total sum amount of the
2,274,030.00GBP which amount to the sum of
22,740.00GBP. Reasons I have been on it all day trying to see
how i cold help but i have a limit and can only rules out 30%
out of the total amount of the 22,740.00GBP which has left you
with the provision of the balance of 15,918.00GBP this most be
provide in slip and cash by you before the end of this month,
i have already rule out the 30% in your favor and this is my
limit. And one more thing you most do me a favor by not
telling Dr. Rose M. Peterson about this because it will not be
good for her health, i have also let Mr. William J. Stockford
know about this after he explain her condition to me and how
she has suffered right from Syrian and still in hospital bed
here in England which he couldn't let out to me according to
him for security reasons which i up liege to, because of this
i was moved to present myself to do anything to support you in
this course of helping you save her money for her kindness
toward humanity she most be brave, i will work with you to
make sure the money get through at the end of the provision of
this fee required, i did all i thought i could by cute this
payment but the policy stands which has left my hands tired,
you do your best i raising the 15,918.00GBP, i will do my best
to extend dates so that you don't run into delay, hope to hear
from you soon.

I have all the transferred documents here and i have compared to all you have sent across to me and all confirmed accurate and valid, but the only condition here is that we are not allowed to access the funds from here because of the terms and condition that has been place on the funds, it became worse after Mr. Jonathan Arr tries to divert the funds to his wife, the only help i can give to you at this point is what i have done, . you have to provide the money requested or stand the chance to loss all the funds to the British government.I have also took a decision to inform Dr. Rose M. Peterson so that she will be aware of what happen next, because it will be better she knows the situation of ground now than to let her know when everything is gone, i will advice you search for money any way you can to solve this problem and payback when the funds get through to you, which am promising you am going to help you with than to loss all this funds, Am promising you my best if not for this obstacles the funds would have been in your account by now, please try to find money in any way i will do my best to help you hold time, hope to hear from you soon.

I am very sorry i am not allowed to do that because of the circumstances guiding the transfer, it's sealed and the terms that goes with it indicated ''confidential'' which means not allowed to dispose any documents regard the transfer, for that reasons i can let out any of these documents my duty here is to make sure the money goes through which i have promise you. I will advice that you can talk to someone whom you think will understand you, give other reasons why you need the money, you can use your company any other means because no one will want to lend you money to help your fiance just like that, my advice still remain talk to someone give other reasons why you need the money and payback as soon the money gets through, remember time is not on our side my power might be limited when we run out of time.ThanksMr. Warren C. It has been a very long day trying to reach an agreement because of the complication that came up in the continuity of the finalization of the transfer process. The transfer process was entered this morning after making the payment of the thirty thousand pounds (30,000 GBP) you sent, but the committee of the European international funds remittance that will finalized the transfer of the funds to your account in Swed bank has issue a stop order on the funds because of the cross over of the transaction from 2013 remittance year to 2014, it all happen while they where auditing the 2013 transaction under the European international funds remittance, while they were going through they came across the funds and also because there is no nonresidential account because the previous one has been closed because the funds had left, for this the funds was left pending while we were waiting for the money you transferred which has been entered today.

The stop order was issue on the 06/01/2014 that was the deadline they gave me which i informed you about earlier but because of my involvement in the transfer process i was being pardoned when i presented the transfer slip of the thirty thousand pounds (30,000 GBP) you transferred which i picked up this morning and has been entered for the finalization of the funds when the complication came up. And with this we stand the chance of losing 78% to 84% of the funds to the British Government and will get refunds of balance after 6 months which i will i have turn down but there is another way out which i have accepted and will advice we work with because 78 to 84% and will get refunds of balance after 6 months is advisable which i think Dr. Rose M. Peterson will not allowed after all she has go through, i will advice we work together to make sure the funds get through, now we have been given 13

working days to get back to them with the option i have accepted.

OPTIONS

After much negotiation on the funds transfer table and with the circumstance surrounding the funds i was give this option which i accepted because of how far you and Dr. Rose M. Peterson have come in trying to make sure the funds get through to you in safety for her benefit after all she has suffered in Syrian and also in hospital bed here in an unknown destination for security reasons and also the effort i have put in so far to make sure things go your way and that of Dr. Rose M. Peterson. First they demanded for One hundred thousand pounds (100,000 GBP) including other charges and tax which i have to wave fifty thousand pounds (50,000 GBP) with my office and it was left with this figures which i couldn't cut below this, i have wanted to do more but that is my limit.

CHARGES TO BE PAYED

You have been ask to raise a check for an nonresidential account of twenty eight thousand five hundred pounds (28,500 GBP) and transfer charges of twenty one thousand five hundred (21,500 GBP) making the total figure fifty thousand pounds (50,000 GBP) to complete the process, which i have made a reservation for so that the cash can be put on pending because it will not be wise we lose all that money and we have 13 working days to make this up or we stand the chance of losing the whole funds, get back to me, it's urgent confirm back to me if you get my email.

Peterson has put in so much effort to have come this far, if not for the cross over and the auditing process which came in we would have achieved getting the funds through by now, that is why am advising you do your best to come up with the twenty eight thousand five hundred pounds (28,500 GBP) and the transfer charges of twenty one thousand five hundred (21,500 GBP) making the total figure fifty thousand pounds (50,000 GBP) to complete the transfer process over to your account in Swed bank.

For your information from what i have seen on the transfer documents, though you not be aware of this but am informing you that in the course of the transfer Dr. Rose M. Peterson has issue 20% of the total amount of the funds for any expenses incur in the transfer process at the end of the transfer over to your account in Swed bank to you who stands to represent her as her beneficiary which i believe will cover any expenses incur in the process. It will be wise like i have advice you to do your best to come up with the money so that i can complete the transfer process with them, get back to me, 1 working days is gone and now the 2nd day is on the way which has left us with 11 working days left remember that, hope to hear from you, i will be busy today but i will keep my eyes on email, if you raise the fifty thousand pounds (50,000 GBP) for the charges transfer to last account you use.

Thanks for your message but why late? Today is Monday and i have allots of meeting on me, i expected you get back to me earlier than this, time is against us any further delay from us, the British International financial action task force (BIATF) might put the funds on hold and that might cost us more money.

I have checked it and it's okay, but you should add international passport before you send the email to the British International financial action task force (BIATF) and please if any reply get in touch with me before you get back to them so that you don't contradict things, always reach me with any email from them before you proceed, we are having this problem because of the details of Mr. Stockford though we have proof but they need more to that before they released funds to the Swedish central bank for further accreditation of of your account in Swed Bank.

Mr. Stockford wrote me this morning Dr. Rose M. Peterson is in a bad shape with her health, i have extended my words of encouragement to her through Mr. Stockford, this is our last

chance to get this funds through you have to be skeptical with anything they demand, keep me posted.

Thanks for informing me about that i have contacted a friend at the Supreme Court of the United Kingdom here in London about it and in reply he advice we let the British International financial action task force (BIATF) take care of everything because this documents might take longer than we think, according to him this documents is basically issued to those making hug private funds transfer from England to other countries and it goes with allots which i acknowledge to he is very correct about and the other option he gave was i should advice you write them what you can do to get these documents.

The (non marital relationship certificate) and the (Anti terrorist certificate) are vital documents required and if the funds goes through as they have said without these documents the funds might ends up pending or refunded to the British government, they know these things that is why they need your approval, write them to hold on and also how you can get the documents, get back to me with any information from them so that we know what step to take.

I have gotten your email in regard to what they requested of you, that is a letter you have to enclosed in an introduction note stating that you and Dr. Rose M. Peterson are into relationship and for the safety of life you ask her to give us the contract in Syria so that she can come home for you and her to settle down, but before then you need to introduce yourself, your job and country then you follow up with what i have just explain above so that these documents can be given out for you to get the funds to safety whatever the cost is let me know i will see how i help you if am allowed to do that and you most not let Dr. Rose M. Peterson know about this because of her condition in the hospital her health is very important, keep me posted, you can let me read after writing before you print and sign then scan and send to them.

This is to inform you i got your email, the 10 working days they have given to you is to confirm all transfer details to make sure everything go in your favor and in other hand to give you the full legal right to have full access to the funds in Swed Bank, as for Mr. Burton O.Lyle i believed he most have been busy with his job there is allot going on in the financial world that if you are in an office you do allots of things at a time, keep me posted if you get any information from him and the Supreme court through Brr. Taylor H. Jefferson, all these are normal due process to proove you as the rightful beneficiary to recievd this funds on behalf of Dr. Rose M. Peterson in-case anything goes wrong, they can re-fare to all these process, the documents you requested for is the what finalized the transfer over to you for this they will make sure they do thorough investigation and confirm all transfer details to make sure you are been presented by Dr. Rose M. Peterson which i have to say you have nothing to worry about than to wait for them to finish there investigation process and grant you the documents for you to complete your transfer.

As for what i have seen so far your funds will get through to you soon, just do as they require of you and wait as they have said for the 10 working days and after that if all details like i have here in my office that has been confirmed valid your funds will be in your account before you know it, hope to hear from you.

Thanks for informing me about this, all these process is for your safety and also for the funds, your country is so strict with marital issues this is why the British/Swedish international funds remittance has requested for this and after this your funds will at your end so we most work with any option they might bring to complete the transfer of the funds to your account in Swed bank as indicated by Dr. Rose M.

Peterson, let us hope they give us an option that will be beneficial for them to complete the transfer because as soon as the letter of released of funds is issued by the Supreme court your the funds us close to your end means we have to work with them in any way we can so that we don't mistake that will cost us losing the money to Swedish government because they are going to demand this photo or you and Dr. Rose M. Peterson's from you which is going to stand as blockage for you keep me posted if you get any information from Brr. Taylor H. Jefferson on the option that will be given, keep me posted.

Thanks for the information and the email, good you don't inform Dr. Rrose M. Peterson because this will not do her health any good, as you can see on the explanation on the first email it's clear that the fee is refundable(which means you will get this money back with the funds as it's credited to your account, we can't make any mistake at this point when we are almost at the end of getting the funds through to your end, remember we are dealing with the Supreme court of United Kingdom London (unit) as it explain this money is needed for a proof of beneficiary by the Supreme Court of the United Kingdom London (Unit)and this money most come from you which means every other proof will be filed with it when it's being presented and this condition is something you can not charge or ask someone els to do for you, i will advice you write back to him to go ahead with the confirmation email that you will pay the money while you look for a way out to raised the money, the money will be refund back to you and from the look of thing you will not pay any more money on this transfer after this.

It's clear that after this verification and confirmation that you have make the cash avalaibal from your end the documents will be issued and the funds will be released to you everything they are doing is for your own safety and also for the funds to get to your end in good condition am in Belgium Brussels because one of my transfer is having some problem in Simferopol Crimea in southern Ukraine which is now having some problem because they want to be state of Russia, i will advice you look for a way to raise the money and am assuring you it will be okay this time, always keep me posted.
